**RETHREADING TOOL FOR
 WHEEL STUD THREAD
 HGV**

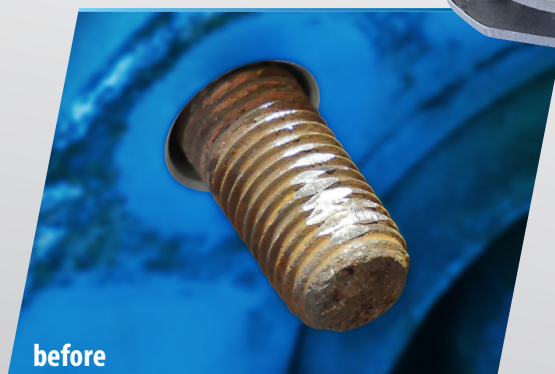

NEU

Made in Germany

Universally applicable on commercial vehicle wheel studs, wheel bolts or other threads with M22x1.5 mm.

- Quick and cost-saving rethreading of damaged threads on wheel studs and wheel bolts
- The thread is formed back to its original geometry by rolling (forming, pressing, shaping), without cutting
- No material is removed in the process
- The strength of the wheel studs or the wheel bolts is completely maintained
- The thread is additionally compacted again
- Compact design
- Drive with a conventional hexagonal socket with reversible ratchet
